Hi Ali!

I was awkward af this past year, but I absolutely love what CSS has done for students. With that being said, if you ever need a hand with anything at all, please don't be afraid to reach out! (Shooting me a text would probably get the quickest response 519-562-7934.)

Below you'll find the links to templates I shared from Canva. If you don't have an account yet, you'll have to sign up for it to use them. I just used the free version for all of these and worked on posts from my phone for the most part. I tried my best to categorize the templates, but sorry if something seems to be out of place or included twice.

Issues I've had with Canva:

- Sometimes I had to duplicate images before downloading if the file consisted of multiple images
- Text would sometimes change format after saving

Other than that, it's pretty simple to use.

 Goodluck with the year ahead!
